

Port of Seattle®

Advanced PortGen 2022

In partnership with the US DOT NW SBTRC and Washington PTAC, the Port of Seattle presents the 2022 Advanced PortGen Workshop series. This seven week workshop training program will provide education to small, minority and woman-owned businesses. This includes, but is not limited to, design, construction, architectural and engineering firms. While companies throughout King county and surrounding counties are welcome to attend, companies located in South King County are especially encouraged to participate. The workshop series will utilize subject matter experts with topics targeting the transportation industry.

The Advanced PortGen 2022 series will cover key projects and professional skills that are essential for effective management of the company. Participants will be introduced to procurement opportunities with the Port of Seattle, networking and collaboration with peers. All classes will be held on Tuesdays.

CLASSES ARE FREE OF CHARGE!
